SUBJECT INDEX

Animal and Human Navigation:

Integration of Hydrostatic Pressure Information by Identified Interneurones in the Crab *Carcinus maenas* (L.); Long-Term Recordings. *Fraser, P. J., Macdonald, A. G., Cruikshank, S. F. and Schraner, M. P.* 71

Flight Tracks of Homing Pigeons Measured with GPS. *Hünerbein, K. von, Wiltschko, W. and Rüter, E.* 167

Wayfinding and Airport Terminal Design. *Fewings, R.* 177

Infrasound and the Avian Navigational Map. *Hagstrum, J. T.* 377

Evaluation of Long-Distance Orientation in Birds on the Basis of Migration Routes Recorded by Radar and Satellite Tracking. *Alerstam, T.* 393

Sun Compass and Wind Drift Compensation in Migrating Butterflies. *Srygley, R. B. and Oliveira, E. G.* 405

Oceanic Long-distance Navigation: Do Experienced Migrants use the Earth's Magnetic Field? *Åkesson, S., Luschi, P., Papi, F., Broderick, A. C., Glen, F., Godley, B. J., and Hays, G. C.* . 419

The Use of Landmarks by Clark's Nutcrackers: First Tests of a New Model. *Kamil, A C., Goodyear. A. J. and Cheng, K.* 429

Collision Avoidance:

Removal of an Ambiguity from the Maritime Collision Regulations (Forum). *Cooper, R. W.* . 489

Collision Regulations and Fast Craft (Forum). *Pike, R. D.* 477

Domain and Its Model Based on Neural Networks. *Zhu, X., Xu, H. and Lin, J.* 97

History of Navigation:

Development of Celestial Navigation by the Ancient Maya. *Peck, D. T.* 145

The Organisation of Hydrographic Information for English Navigators – Five Hundred Years of Sailing Directions and Charts. *Fisher, S.* 157

The Development of Airborne Dead Reckoning. Part I: Before 1940 – Finding The Wind. *Ayliffe, A.* 223

Olaus Magnus and the 'Compass' on Hvitsark. *Seaver, K.* 235

The Development of Airborne Dead Reckoning. Part II: After 1940 – Staying on Track. *Ayliffe, A.* 463

Hydrography, Meteorology and Oceanography:

Drift of Sea Ice Ridges in the Pechora Sea. *Johannessen K., Gudmestad, O. T. and Løset, S.* . 81

Survey Boat Attitude Determination with GPS/IMU Systems. *Alkan., Dr. R. M. and Baykal Prof. Dr. O.* 135

Integrated Systems:

Low-Cost INS/GPS Integration: Concepts and Testing. *Cannon, M. E., Nayak, R., Lachapelle, G., Salychev, O. S. and Voronov, V. V.* 119

Land Navigation and Vehicle Location:

Integrated use of GPS and GLONASS in Support of the Redesign of Road Networks. *El-Mowafy, Dr. A.* 15

Intelligent Transport Systems. *Carter, A.* 57

Development and Testing of a GPS-Augmented Multi-Sensor Vehicle Navigation System. *Stephen, J. and Lachapelle, G.* 297

Future Positioning Technologies and their Application to the Automotive Sector. *Sage, A.* . 321

In-vehicle Traffic Information Systems in Europe: Never Mind the (Band)Width, Feel the Quality. *Calafell, J and Pyne, M.* 329

Hidden Antennas for Vehicle Telematics Systems. *Langley, Prof. R.* 337

The Technical and Operational Feasibility of Automatic Number-Plate Recognition as the Primary Means for Road User Charging. *Blythe, P. T., Knight, P. and Walker, J.* 345
Assessing the Compliance of Telematics Automotive Products with the European Principles of Human-Machine Interaction. *Board, Mrs A. C. and Stevens, Dr. A.* 365
Mobile Data and Location Developments within RAC Motoring Services. *Skilton, P. and Murdoch, M.* 371

Maps and Charts:
Applying Map Databases to Advanced Navigation and Driver Assistance Systems. *Rowell, J. M.* 355

Navigation Policy and Economics:
GNSS Guidance for All Phases of Flight: Practical Results. *Leighton, S. J., McGregor, A. E., Lowe, D., Wolfe, A. and Macaulay, A. A.* 1
Free-Flight in Europe, Problems and Solutions. *Ratcliffe, S.* 213
Is DGPS Still a Good Option for Mariners? *Moore, T., Hill, C and Monteiro, L.* 437
Evolution of Air Navigation Services during this Decade. *Whelan, Dr. C.* 447

Radio Aids:
Legislation Update – Radio and EMC in the Automotive Environment. *Beadman, T.* 65

Reviews:
Global Positioning System. By B. Hoffmann-Wellenhof, H. Lichteneeger and J. Collins. (Professor T. Moore) 481

Safety, Search and Rescue:
What's Lookout About at Sea? (Forum). *Lee, Capt. G. W. U.* 151
The Maritime Safety System, its Main Components and Elements. *Kopacz, Z., Morgas, W. and Urbanski, J.* 199

Satellite Navigation Systems
Dual Frequency DGPS Service for Combating Ionospheric Interference. *Ørpen, O. and Zwaan, H.* 29
Assessment of EGNOS Tropospheric Correction Model. *Penna, N. Dodson, A. and Chen, W.* 37
GPS Receiver Performance Enhancement via Inertial Velocity Aiding. *Jwo, D-J.* 105
Potential Performance Levels of a Combined Galileo/GPS Navigation System. *Ochieng, W. Y., Sauer, K., Cross, P. A., Sheridan, K. F., Iliffe, J., Lannelongue, S., Ammour, N. and Petit, K.* 185
Increasing the Spatial Limits of LADGPS Using Stratospheric Platforms. *Boiero, G., Dovis, F., Mulassano, P. and Mondin, M.* 255
Efficient DOP Calculation for GPS with and without Altimeter Aiding. *Jwo, D-J.* 269
A Non-Precision Instrument Approach Procedure with Vertical Guidance (IPV) for Aircraft Landing Using GPS. *Rao, G. S. B., Sarma, A. D., Rao., V. V. and Ramalingam K.* 281
Horizontal GPS Positioning Accuracy During the 1999 Solar Eclipse. *Filjar, R.* 293
